Product Description

12.3inch Car DVD Screen Original Car Functions Retained for BMW 5 Series/E602005-2009 Including Frame Cable Canbus

Product Specifications

Attribute	Value
Car Model	for BMW 5 Series/E602005-2009
System	Android
Size	12.3inch
Screen Resolution	2400*896

Our Product Introduction

RAM	4/6/8GB
ROM	32/64/128/256GB
Display	Touch Screen
Color	Matte Black
Material	ABS
Language	Support Multi-language
Carplay/Auto	CarPlay+Android Auto (Wired+Wireless)
360 Panoramic View	Optional

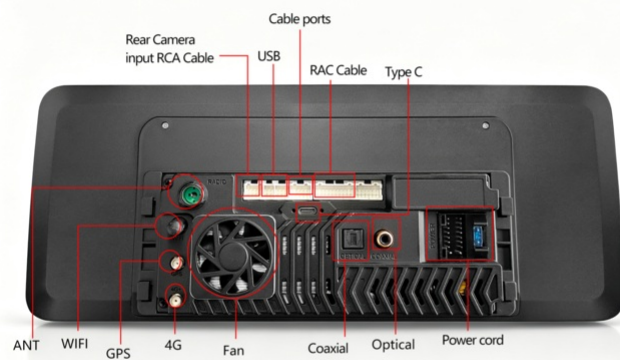

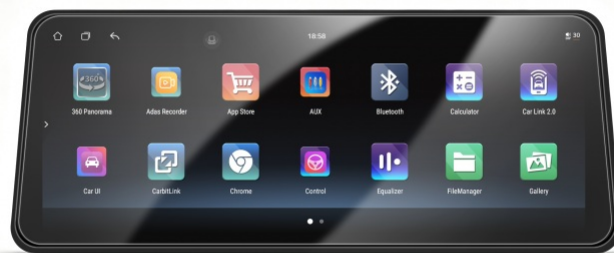

Product Overview

The image shows a car stereo unit installed in a vehicle's dashboard. The screen displays a colorful interface with various icons. Above the screen, there are icons for ADAS, 4G network, 8cores, carplay, and Aotu. The text "2005-2019 FOR BMW 5 Series /E60/F10/G38" is prominently displayed. Below the screen, there is a green Android 13 logo. At the bottom, there is a pink banner with the text "Original car functions retained" and "CCC/CIC/NBT/EVO System". Below that, another pink banner reads "DSP/BT5.0/2400*896 resolution".

The 12.3-[inch touch screen display](#) of our Car DVD GPS Navigation System allows for easy navigation through menus while keeping your focus on the road. The high-resolution QLED display ensures clear visibility of all information.

The integrated [rear view camera](#) provides enhanced safety when reversing or parking, giving you a clear view of obstacles behind your vehicle.

Equipped with [DSP \(Digital Signal Processing\)](#) technology, this unit delivers premium audio quality for both music playback and navigation instructions.

The unit supports various media formats including JPG and BMP for image viewing, making it perfect for entertainment during long drives.

Key Features

- Android-based operating system with multi-language support
- Wireless and wired CarPlay/Android Auto connectivity
- Optional 360° panoramic view capability
- Multiple RAM/ROM configurations available (4/6/8GB RAM, 32/64/128/256GB ROM)
- High-resolution 1280×720 touch screen display
- DSP technology for superior audio quality
- Quad-core processor for smooth performance

Applications

This advanced car entertainment and navigation system is ideal for:

- Daily commuting with real-time GPS navigation
- Long road trips with multimedia entertainment
- Enhanced safety with rear view camera assistance
- High-quality audio experience for music lovers
- Seamless smartphone integration via USB or wireless connection
