BMW Dual System Upgrade

Factory System and Android OS Switch Freely

Keep the factory display untouched and unlock comprehensive Android capabilities. Freely toggle between OEM system and Android interface. Plug & Play installation without wire cutting. Preserve all stock vehicle features while bringing modern intelligence to your cockpit.

The 12.3-inch touch screen display of our Car DVD GPS Navigation System allows for easy navigation through menus while keeping your focus on the road. The high-resolution QLED display ensures clear visibility of all information.

The integrated rear view camera provides enhanced safety when reversing or parking, giving you a clear view of obstacles behind your vehicle.

Equipped with DSP (Digital Signal Processing) technology, this unit delivers premium audio quality for both music playback and navigation instructions.

The unit supports various media formats including JPG and BMP for image viewing, making it perfect for entertainment during long drives.

Key Features

- Android-based operating system with multi-language support
- Wireless and wired CarPlay/Android Auto connectivity
- Optional 360° panoramic view capability
- Multiple RAM/ROM configurations available (4/6/8GB RAM, 32/64/128/256GB ROM)
- High-resolution 1280x720 touch screen display
- DSP technology for superior audio quality
- Quad-core processor for smooth performance

Applications

This advanced car entertainment and navigation system is ideal for:

- Daily commuting with real-time GPS navigation
- Long road trips with multimedia entertainment
- Enhanced safety with rear view camera assistance
- High-quality audio experience for music lovers
- Seamless smartphone integration via USB or wireless connection
